Design Seminars

April 2016 TBD	May 2016 TBD	June 2016 TBD
-------------------	-----------------	------------------

The interactive **Design Seminar** helps you design a successful watershed wise landscape that uses Conservation, Permeability and Retention.

Learn how to contour the landscape for rainwater capture, create a climate-appropriate plant list, and place plants on a plan using key design principles that group them according to water needs. If you bring your own base plan, you can practice designing your own landscape!
